

Version 6.3B

Page 1 / 9

Revision Date 09.01.2023

**SECTION 1: Identification of the substance/mixture and of the company****Product Identifier**

Product Name: POWSIL™ 59258

**Relevant identified uses of the substance or mixture and uses advised against**

Relevant applications identified For industrial use

**Details of the supplier of the safety data sheet****Company**

Nanjing SiSiB Silicones Co., Ltd.  
Guanghua Sci & Tech Industrial Zone,  
No. 104, Guanghua Road, Nanjing 210007, P.R.China  
Email: SDS@SiSiB.com

Emergency Telephone Number: +86-25-8468-0091

**SECTION 2: Hazardous identification****Summary of hazard in an emergency situation**

Liquid. Mixes with water. Irritating to skin.

**Classification of hazards**

Not Applicable

**Label elements**

GHS label elements Not Applicable

SIGNAL WORD Not Applicable

**Hazard statement(s)**

Not Applicable

**Precautionary statements****Precautions**

Not Applicable

**Incident response**

Not Applicable

**Safe storage**

Not Applicable

**Waste disposal**

Not Applicable

**Physical and Chemical Hazard**

Liquid. Mixes with water.

**Health Hazards****Inhaled**

The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models). Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.

Version 6.3B

Page 2 / 9

Revision Date 09.01.2023

**Ingestion**

Ingestion of the material may be damaging to the health of the individual.

**Skin Contact**

This material can cause inflammation of the skin on contact in some persons. Open cuts, abraded or irritated skin should not be exposed to this material.

**Eye**

This material can cause eye irritation and damage in some persons.

**Environmental Hazards**

See Section 12.

**Other hazards**

Cumulative effects may result following exposure.

**SECTION 3: Composition/information on ingredients****Chemical properties**

Mixture

**Composition Information**

The components are not hazardous or are below required disclosure limits.

**SECTION 4: First aid measures****Description of first aid measures****Eye contact**

If this product comes in contact with the eyes:

Wash out immediately with fresh running water.

Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.

Seek medical attention without delay; if pain persists or recurs seek medical attention.

Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

**Skin contact**

If skin contact occurs:

Immediately remove all contaminated clothing, including footwear.

Flush skin and hair with running water (and soap if available).

Seek medical attention in event of irritation.

**Inhalation**

If fumes, aerosols or combustion products are inhaled remove from contaminated area.

Other measures are usually unnecessary.

**Ingestion**

Immediately give a glass of water.

First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

Version 6.3B

Page 3 / 9

Revision Date 09.01.2023

**Advise for rescue team (PPE requirement for rescue personnel)**

Wear portable respiratory protective devices if get into the scene of the accident.

**Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.

**SECTION 5: Firefighting measures****Extinguishing media**

Water spray or fog. Foam. Dry chemical powder. BCF (where regulations permit). Carbon dioxide.

**Special hazards arising from the substance or mixture****Fire Incompatibility**

Avoid contamination with oxidizing agents i.e. nitrates, oxidizing acids, chlorine bleaches, pool chlorine etc. as ignition may result.

**Advice for firefighters**

Alert Fire Brigade and tell them location and nature of hazard.

Wear full body protective clothing with breathing apparatus.

Prevent, by any means available, spillage from entering drains or water course.

Use water delivered as a fine spray to control fire and cool adjacent area.

DO NOT approach containers suspected to be hot.

Cool fire exposed containers with water spray from a protected location.

If safe to do so, remove containers from path of fire.

**Fire/Explosion Hazard**

Combustible.

Slight fire hazard when exposed to heat or flame.

Heating may cause expansion or decomposition leading to violent rupture of containers.

On combustion, may emit toxic fumes of carbon monoxide (CO).

May emit acrid smoke.

Mists containing combustible materials may be explosive.

Combustion products include:

Other pyrolysis products typical of burning organic material

May emit corrosive fumes.

**SECTION 6: Accidental release measures****Personal precautions, protective equipment and emergency procedures****Minor Spills**

Clean up all spills immediately.

Avoid contact with skin and eyes, by using protective equipment.

Collect the leakage, place in a suitable, labelled container for waste disposal.

**Major Spills**

Version 6.3B

Page 4 / 9

Revision Date 09.01.2023

Alert Fire Brigade and tell them location and nature of hazard.  
Use protective equipment to avoid contact with skin and eyes  
Contain spill with sand, earth or vermiculite.  
Collect recoverable product into labelled containers for recycling.  
Collect residues and seal in labelled drums for disposal.  
If contamination of drains or waterways occurs, advise emergency services.  
Personal Protective Equipment advice is contained in Section 8 of the SDS.

**Measures for Preventing Secondary Contamination**

Refer to section above

**Environmental precautions:**

See section 12

**SECTION 7: Handling and storage****Handling****Precautions for safe handling**

Avoid all personal contact, including inhalation.  
Wear protective clothing when risk of exposure occurs.  
Use in a well-ventilated area.  
Prevent concentration in hollows and sumps.  
DO NOT enter confined spaces until atmosphere has been checked.  
Avoid smoking, naked lights or ignition sources.  
Avoid contact with incompatible materials.  
When handling, DO NOT eat, drink or smoke.  
Keep containers securely sealed when not in use.  
Avoid physical damage to containers.  
Always wash hands with soap and water after handling.  
Work clothes should be laundered separately.  
Use good occupational work practice.  
Observe manufacturer's storage and handling recommendations contained within this SDS.  
Atmosphere should be regularly checked against established exposure standards to ensure safe working conditions.

**Other information**

Store in original containers.  
Keep containers securely sealed.  
No smoking, naked lights or ignition sources.  
Store in a cool, dry, well-ventilated area.  
Store away from incompatible materials and foodstuff containers.  
Protect containers against physical damage and check regularly for leaks.  
Observe manufacturer's storage and handling recommendations contained within this SDS.

Version 6.3B

Page 5 / 9

Revision Date 09.01.2023

### Conditions for safe storage, including any incompatibilities

#### Suitable container

Metal can, plastic tank or drum

Packaging as recommended by manufacturer.

Check all containers are clearly labelled and free from leaks.

## SECTION 8: Exposure Controls/Personal Protection

### Control parameters

#### Occupational exposure limits (OEL)

#### Ingredient data

Not Available

#### Emergency limits

Not Available

#### Exposure controls

##### Appropriate engineering controls

Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection. General exhaust is adequate under normal operating conditions. Local exhaust ventilation may be required in specific circumstances. If risk of overexposure exists, wear approved respirator. Correct fit is essential to obtain adequate protection. Provide adequate ventilation in warehouse or closed storage areas. Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to effectively remove the contaminant. Process controls which involve changing the way a job activity or process is done to reduce the risk.

##### Personal protection

##### Eye/face protection

Safety glasses with side shields.

Chemical goggles.

##### Skin protection

See Hand protection below

##### Hands/feet protection

Wear chemical protective gloves, e.g. PVC.

Wear safety footwear or safety gumboots, e.g. Rubber

**Body Protection**

See Other protection below

**Other protection**

Overalls.

P.V.C. apron.

Eye wash unit.

**Respiratory protection**

Not Available

**SECTION 9: Physical and Chemical Properties****Information on basic physical and chemical properties**

Appearance	Dark yellow translucent to transparent viscous liquid
Odor	Sight odor
Odor threshold	No data available
pH as a solution (1%)	No data available
Melting point / freezing point (°C)	No data available
Initial boiling point and boiling range (°C)	No data available
Flash point (°C)	No data available
Flammability	Not Applicable
Upper Explosive Limit (%)	No data available
Lower Explosive Limit (%)	No data available
Explosive properties	Not explosive
Vapor pressure (kPa)	No data available
Vapor density (Air = 1)	No data available
Relative density (Water = 1)	No data available
Solubility in water (g/L)	Miscible
Partition coefficient n-octanol / water	No data available
Auto-ignition temperature(°C)	No data available
Decomposition temperature(°C)	No data available
Critical temperature(°C)	No data available
Critical pressure(kPa)	No data available
Combustion heat	No data available
Evaporation rate	No data available
Viscosity(mPa · s)	No data available
VOC(g/L)	No data available

**SECTION 10: Stability And Reactivity**

Version 6.3B

Page 7 / 9

Revision Date 09.01.2023

**Reactivity**

See section 7

**Chemical stability**

Product is considered stable.

Hazardous polymerization will not occur

**Possibility of hazardous reactions**

See section 7

**Conditions to avoid**

See section 7

**Incompatible materials**

See section 7

**Hazardous decomposition products**

See section 5

**SECTION 11: Toxicological Information****Acute oral toxicity LD50**

&gt;5000mg/kg (rat).

**Acute dermal toxicity LD50**

No data available

**Acute inhalation toxicity LC50**

No data available

**Skin corrosion /irritation**

No data available

**Eye damage/ irritation**

No data available

**Respiratory or skin sensitization**

No data available

**Germ cell mutagenicity**

No data available

**Reproductive toxicity**

No data available

**STOT – single exposure**

No data available

**STOT - repeated exposure**

No data available

**Aspiration toxicity**

No data available

**Carcinogenicity assessment carcinogenicity**

Version 6.3B

Page 8 / 9

Revision Date 09.01.2023

No data available

**SECTION 12: Ecological Effects****Acute aquatic toxicity LC50**

&gt;100 mg/L (OECD 203, 96h, Fish)

**Acute aquatic toxicity EC50**

&gt;100 mg/L (OECD 202, 48h, Daphnia)

**Acute aquatic toxicity ErC50**

&gt;100 mg/L (OECD 201, 72h, Algae)

**Aquatic toxicity IC50**

&gt;100 mg /L (OECD 209, 3h, Bacteria)

**Chronic toxicity to fish**

No data available

**Chronic toxicity to aquatic invertebrates**

No data available

**Degradability**

No data available

**COD**

No data available

**BOD**

No data available

**Persistence**

No data available

**Bioaccumulative potential**

No data available

**Mobility in soil**

No data available

**SECTION 13: Disposal considerations****Waste chemicals**

Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations

Recycle as much as possible, try to avoid and reduce waste

DO NOT discharge the waste into drains

**Contaminated packing materials**

Packaging may contain residual chemicals, Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations

Recycle or reuse of cleaned materials should be in accordance with applicable Federal, State/Provincial, and Local regulations

Version 6.3B

Page 9 / 9

Revision Date 09.01.2023

**Precautions for Transport**

Attentions of operation, treatment and precautions of workers should be referred to the content of section 7 and section 8

**SECTION 14:Transport Information****UN number**

ADR/RID: -

IMDG: -
