SAFETY DATA SHEET

POWSIL™ 59480

sion 7.1S Page 1 / 10	Revision Date 11.04.2024
-----------------------	--------------------------

SECTION 1: Identification of the substance/mixture and of the company

Product Identifier

Product Name: POWSIL™ 59480

Relevant identified uses of the substance or mixture and uses advised against

Relevant applications identified For textile softener use

Details of the supplier of the safety data sheet

Company Nanjing SiSiB Silicones Co., Ltd.

Guanghua Sci & Tech Industrial Zone,

No. 104, Guanghua Road, Nanjing 210007, P.R.China

Email: SDS@SiSiB.com

Emergency Telephone Number: +86-25-8468-0091

SECTION 2: Hazardous identification

Summary of hazard in an emergency situation

Liquid. Mixes with water.

Classification of hazards

Skin Corrosion/Irritation Category 2
Eye Irritation Category 2A

Label elements

(!)

Pictogram
Signal word
Warning

Hazard statement(s)

H315 Causes skin irritation.

H319 Causes serious eye irritation.

Precautionary statement(s)

Precautions

P280 Wear protective gloves/protective clothing/eye protection/face

protection.

P264 Wall all exposed external body areas thoroughly after handling.

Incident response

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing

P337+P313 If eye irritation persists: Get medical advice/attention.
P302+P352 IF ON SKIN: Wash with plenty of water and soap.
P332+P313 If skin irritation occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before reuse.

Safe storage

Not Applicable

Waste disposal

Not Applicable

Physical and Chemical Hazard

Liquid. Mixes with water.

Health Hazards

Inhaled

The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models).

Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.

Ingestion

Ingestion of the material may be damaging to the health of the individual.

Skin Contact

This material can cause inflammation of the skin on contact in some persons. Open cuts, abraded or irritated skin should not be exposed to this material.

Eye

This material can cause eye irritation and damage in some persons.

Environmental Hazards

See Section 12

Other hazards

Cumulative effects may result following exposure.

SECTION 3: Composition/information on ingredients

Chemical properties

Mixture

Composition Information

CAS No.	%[weight]	Name
1253692-80-6	28.0-35.0	Silicone-Polyglycol Polymer, Alkylamine-terminated
68937-55-3	<5.0	Siloxanes and Silicones, di-Me, 3-hydroxypropyl Me, ethoxylated propoxylated
25322-69-4	30.0-50.0	Poly propylene glycol
64-19-7	<1.0	Acetic acid
7732-18-5	Until 100	Water

SECTION 4: First aid measures

Description of first aid measures

SAFETY DATA SHEET

POWSIL™ 59480

Version 7.1S Page 3	/ 10 Revis	sion Date 11.04.2024
---------------------	------------	----------------------

Eye contact

Wash out immediately with fresh running water.

Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.

Seek medical attention without delay; if pain persists or recurs seek medical attention.

Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

Skin contact

Immediately remove all contaminated clothing, including footwear.

Flush skin and hair with running water (and soap if available).

Seek medical attention in event of irritation.

Inhalation

If fumes, aerosols or combustion products are inhaled remove from contaminated area.

Other measures are usually unnecessary.

Ingestion

Immediately give a glass of water.

First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

Advise for rescue team (PPE requirement for rescue personnel)

Wear portable respiratory protective devices if get into the scene of the accident.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Water spray or fog. Foam. Dry chemical powder. BCF (where regulations permit). Carbon dioxide.

Special hazards arising from the substance or mixture

Fire Incompatibility

Avoid contamination with oxidizing agents i.e. nitrates, oxidizing acids, chlorine bleaches, pool chlorine etc. as ignition may result.

Advice for firefighters

Fire Fighting

Alert Fire Brigade and tell them location and nature of hazard.

Wear full body protective clothing with breathing apparatus.

Prevent, by any means available, spillage from entering drains or water course.

Use water delivered as a fine spray to control fire and cool adjacent area.

DO NOT approach containers suspected to be hot.

Cool fire exposed containers with water spray from a protected location.

If safe to do so, remove containers from path of fire.

Fire/Explosion Hazard

May emit corrosive fumes.

SAFETY DATA SHEET

POWSIL™ 59480

Version 7.1S Page 4 / 10	Revision Date 11.04.2024
--------------------------	--------------------------

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures Minor Spills

Clean up all spills immediately.

Avoid contact with skin and eyes, by using protective equipment.

Collect the leakage, place in a suitable, labelled container for waste disposal.

Major Spills

Alert Fire Brigade and tell them location and nature of hazard.

Use protective equipment to avoid contact with skin and eyes.

Contain spill with sand, earth or vermiculite.

Collect recoverable product into labelled containers for recycling.

Collect residues and seal in labelled drums for disposal.

If contamination of drains or waterways occurs, advise emergency services.

Personal Protective Equipment advice is contained in Section 8 of the SDS.

Measures for Preventing Secondary Contamination

Refer to section above

Environmental precautions:

See section 12

SECTION 7: Handling and storage

Handling

Precautions for safe handling

Safe handling

Avoid all personal contact, including inhalation.

Wear protective clothing when risk of exposure occurs.

Use in a well-ventilated area.

Prevent concentration in hollows and sumps.

DO NOT enter confined spaces until atmosphere has been checked.

Avoid smoking, naked lights or ignition sources.

Avoid contact with incompatible materials.

When handling, DO NOT eat, drink or smoke.

Keep containers securely sealed when not in use.

Avoid physical damage to containers.

Always wash hands with soap and water after handling.

Work clothes should be laundered separately.

Use good occupational work practice.

Observe manufacturer's storage and handling recommendations contained within this SDS.

SAFETY DATA SHEET

POWSIL™ 59480

Version 7.1S Page 5 / 10	Revision Date 11.04.2024
--------------------------	--------------------------

Atmosphere should be regularly checked against established exposure standards to ensure safe working conditions.

Other information

Store in original containers.

Keep containers securely sealed.

No smoking, naked lights or ignition sources.

Store in a cool, dry, well-ventilated area.

Store away from incompatible materials and foodstuff containers.

Protect containers against physical damage and check regularly for leaks.

Observe manufacturer's storage and handling recommendations contained within this SDS.

Conditions for safe storage, including any incompatibilities

Suitable container

Metal can, plastic tank or drum.

Packaging as recommended by manufacturer.

Check all containers are clearly labelled and free from leaks.

Storage incompatibility

Exposure controls

Appropriate engineering controls

Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection. General exhaust is adequate under normal operating conditions. Local exhaust ventilation may be required in specific circumstances. If risk of overexposure exists, wear approved respirator. Correct fit is essential to obtain adequate protection. Provide adequate ventilation in warehouse or closed storage areas. Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to effectively remove the contaminant. Process controls which involve changing the way a job activity or process is done to reduce the risk.

Personal protection

Eye/face protection

Safety glasses with side shields.

Chemical goggles.

Skin protection

See Hand protection below

Hands/feet protection

Wear chemical protective gloves, e.g. PVC.

Wear safety footwear or safety gumboots, e.g. Rubber

Body Protection

See Other protection below

Other protection

Overalls.

P.V.C. apron.

Eye wash unit.

Respiratory protection

SECTION 13:Disposal considerations

Waste chemicals

Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations.

Recycle as much as possible, try to avoid and reduce waste.

DO NOT discharge the waste into drains.

Contaminated packing materials

Packaging may contain residual chemicals, Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations.

Recycle or reuse of cleaned materials should be in accordance with applicable Federal, State/Provincial, and Local regulations.

Precautions for Transport

Attentions of operation, treatment and precautions of workers should be referred to the content of section 7 and section 8.
