

# SiSiB<sup>®</sup> CE7570

## Tire Brightener

### CHEMICAL NAME

Modified silicone emulsion

### INTRODUCTION

SiSiB<sup>®</sup> CE7570 is a silicone-modified emulsion with unique active groups, offering excellent film-forming properties, long-lasting brightness, and superior waterproofing effects. It is highly versatile and can be widely applied across various industries.

### SPECIAL FEATURES AND BENEFITS

- **Non-ionic emulsion:** Ensuring excellent compatibility
- **High brightness:** Superior hydrophobic properties
- **Outstanding wetting:** Excellent sliding characteristics
- **Good storage stability:** Ensures long-lasting performance
- **Easy to use:** Can be applied directly or with simple dilution
- **Free from alkyl phenols:** More environmentally friendly

### TYPICAL PHYSICAL PROPERTIES

Color and Appearance	Milky liquid
Viscosity (25°C, mPa.s)	Max.300
Ionicity	Nonionic
Solid Content (%)	28-32%
PH	6.0-8.0

### APPLICATIONS

SiSiB<sup>®</sup> CE7570 is a modified silicone emulsion with low viscosity, easy dilution, and a stable diluent, making it suitable for leather and car care applications.

In the leather industry, it enhances brightness, smoothness, waterproofing, and provides a non-sticky feel. Used in the finishing process alongside other auxiliaries, it improves the appearance and texture of the leather surface.

In car care, it serves as a brightening and blackening agent for dashboards, plastic parts,

and tires, delivering a high-gloss, waterproof finish.

For optimal performance, it is recommended to stir well before use to achieve the best finishing effect.

### PACKING AND STORAGE

SiSiB<sup>®</sup> CE7570 is supplied in 120Kg or 200Kg plastic drum.

In the original unopened packaging, SiSiB<sup>®</sup> CE7570 has a shelf life of 12 months in a dry and cool place.
