

SiSiB® CS1002

Anti-Fogging Agent

INTRODUCTION

SiSiB® CS1002 is a modified silicone resin anti-fogging agent. When applied to glass surfaces, it forms an ultra-hydrophilic nano-film that converts fog vapor into a low-freezing-point mixture, effectively preventing fogging for over 15 days.

TYPICAL PHYSICAL PROPERTIES

Appearance	Yellowish transparent liquid
Ionicity	Non-ionic
pH Value	5.0 -7.0
Viscosity 25°C	< 200 cSt
Water Solubility	Easily dispersible in water

BENEFITS

- Durable Anti-Fog Effect:** Provides long-lasting fog prevention for over 15 days.
- High Transparency:** No rainbow effect, ensuring clear visibility.
- Dust-Resistant:** Glass surfaces stay cleaner with reduced dust accumulation.
- Easy Application:** Simple dilution for use, with excellent aqueous solution stability.
- Safe & Eco-Friendly:** Non-toxic, harmless, and environmentally friendly.
- Solvent & Alkyl Phenol-Free:** Ensuring safe and stable performance.

APPLICATIONS

SiSiB® CS1002 is suitable for anti-fog treatment on building windows, door glass, vehicle windshields, eye lenses, resin films, protective mirrors, and plastic films. Due to its high concentration, direct use is not recommended; it should be adjusted based on specific performance requirements.

Recommended formulation:

SiSiB® CS1002	1 part
Water	5 to 15 parts

SiSiB® CS1002 is a concentrated product, and it is recommended to adjust the dilution flexibly according to the demand. It is not recommended to be used directly, which may cause adverse problems.

SiSiB[®] CS1002

Anti-Fogging Agent

It is recommended to test the performance before use to ensure optimal effectiveness and compatibility.

PACKING AND STORAGE

In the unopened original container SiSiB[®] CS1002 has a shelf life of one year in a dry and cool place.
