

SiSiB® PC15334 Silicone Emulsion

INCI NAME Amodimethicone (and) Dimethiconol (and) Trideceth-3 (and) Laureth-23 (and) Water

INTRODUCTION SiSiB® PC15334 is an emulsion made from amino-terminated dimethylsiloxane and ultra-high molecular weight dimethiconol. It significantly improves hair softness and silkiness, with excellent film-forming properties and silky feeling. It can be used in shampoos, conditioning treatments and hair dyes which makes hair smooth and shiny with color protection effects. It effectively improves the dry and wet combing performance of hair, while anti-tangling and anti-static.

- ADVANTAGES**
- Improve the dry and wet combing performance
 - Improve the softness and silkiness
 - Conditioning and repairing properties
 - Soften hair texture and smoothness
 - Prevent tangling, split ends, and knots
 - Excellent film-forming and anti-static properties

PHYSICAL PROPERTIES

Appearance	Milky Liquid
Solid Content	38-42%
pH	6-7
Emulsifier Type	Non-ionic

BENEFITS & APPLICATIONS

SiSiB® PC15334 can be utilized in shampoos with conditioning and repairing benefits, hair conditioners, deep conditioning creams, softening body washes, and skincare creams, ointments, and lotions. It provides a smooth, silky, and non-greasy feel to hair and skin, while also enhancing the repair and hydration properties of these products.

It is recommended to conduct a preliminary test to determine the optimal dosage.

RECOMMENDED DOSAGE

Hair care	1.0- 5.0%
